

To whom it may concern:

I am writing to express my concern about the LPFM broadcast service proposal. I do not want to be limited in the programming that I choose to listen to based on the fact the LPFM stations would take priority over the national or regional translator service that we currently receive. I am especially concerned about the K-LOVE station that we have enjoyed for the past several years in our area by translator. We receive it at 89.5. This is the only station that I listen to for the most part and would miss it greatly if it were not allowed to come through.

We have waited for years for this type of programming that is totally wholesome and positive and encouraging to my family. It is totally supported by listeners, which we take part in. A great number of families would miss this station in my local area, if it we were not able to get it. Adults and children alike enjoy listening to this station, so as you can see, it meets the need of whole family units. This station does provide announcements for local events in our area, which is nice because so many people do listen to it. I can't imagine being able to find a LPFM station that would be able to compare with the quality programming of K-LOVE. I believe we as individuals should have a choice in what we want to listen to without interference from the LPFM broadcast service. Thank you for your consideration.
